Open-Source Technical Talk

About the Speaker:

Farhaan Bukhsh, an alumnus of DSI, is an avid open source contributor and an FOSS enthusiast. He is the co-founder of Metamind and currently works there. He has been a contributor to Mozilla and the Fedora Project since 2015. As a student, he was selected as a student developer in the Google Summer of Code program in 2016. He has since then worked as a product engineer, software and senior software engineer across organisations. Having actively contributed to various projects, he is always curious about the workings of new technologies and concepts.

Farhaan Bukhsh

Event Overview:

The event will commence with an engaging introduction to open source by Mr Farhaan Bukhsh, demystifying its core principles and making the concept of open-source user-friendly. A guided walkthrough will familiarize popular platforms like GitHub, providing tools to navigate the open source world. Through interactive discussions and activities, learn effective strategies to find projects and organisations that align with individual interests. Discover techniques for initiating contributions and gain hands-on insights into setting up development environments. The event will also highlight the benefits of open source participation, both personal and professional, thereby gaining a transformative potential of open source.

Duration: 1 hour 30 minutes 🕒
